

POPULATION – Question spotting

	2010	2011	2012	2013	2014 PREDICTION
Over time the global population increases and the population structures of different countries change.					
I can describe and explain the exponential rate of world population growth.	List of factors affecting world pop growth in the future – explain two. (4)				Describe and explain exponential world pop growth
I can explain why countries pass through different stages of population growth as shown in the five stages of the Demographic Transition Model (birth rate, death rate and natural population changes).	Bar graphs showing changing pop structure in Sweden. Read off % aged 40-64 (1) Two reasons for changes in pop after 1850. (2)	BR +DR of a poor country (Indonesia) – which stage DTM(1) Explain why rate of nat incr in poor countries is falling (8)			Why countries pass through DTM stages
I can explain how the population structure of a country changes as it passes through stages on the Demographic Transition Model.		Pop pyramids of Indonesia – correct year for DTM stages (2) What features of pyramid are typical of later stages DTM (2)		Describe changes in UK pop.structure (diagram – histo) (4)	
I can explain the impact of increasing urbanisation, agricultural change, education and the emancipation of women on the rate of population growth.			Link between pop growth and illiterate females. (4)		Link between population growth and urbanisation, agricultural change, emancipation of women
A range of strategies has been tried by countries					

experiencing rapid population growth.					
I can describe the social, economic and political implications of population change.				Identify rates of pop.change from insert(1,1) Describe the pattern. (3) Outline results of rapid pop.growth.(4)	
I can explain the need to achieve sustainable development in population change.					The need to achieve sustainable development through population control
I can discuss the effectiveness of population policies adopted in different countries since the 1990s to include birth control programmes and two other strategies adopted.	Describe how a named country has attempted to cope with the effects of rapid pop growth. (8)				
I know a detailed case study of China's One Child policy.			Describe one or more problems that China's One Child Policy has caused. (8) One Child Policy – why were changes made?(4)		
I know a detailed case study of a non-birth control population policy.		Newspaper article – why Indonesian gov decided on this policy (transmigration) (4)		Explain how a non-b.c. policy can help achieve sust.dev(8)	
An ageing population impacts on the future development of a country.					

I can explain the relationship between the population structure and population decline and the impact this may have on future economic development.					Link between ageing population structure, pop decline and impact on future economic development.
I can explain the problems associated with an ageing dependent population.				List of problems linked to an ageing pop. Choose two and explain. (4)	
I can explain two government strategies to cope with an ageing population		Many countries now have an ageing pop. How may a country try to increase the BR? (6)			
I can explain two incentives suggested for encouraging an increase in a country's birth rate.					Incentives to increase a countries birth rate
I know a detailed case study of the problems and strategies in one EU country with an ageing population.					EU Ageing population case study
Population movements impact on both the source regions of migrants and the receiving countries.					
I can explain how migration is a result of decision-making push and pull factors.	<p>What is a migrant(1)</p> <p>Pie chart – describe pattern of migrants home countries (4)</p> <p>Explain the possible push and pull factors that</p>		How can economic factors cause people to migrate (eg Polish migrant) (4)		

	encouraged these workers to come to UK.				
I can explain the positive and negative impacts of migration. I can describe economic migration flows within the EU and can explain their impacts.	Positive+negative effects for migrants home country (4)		Describe two ways in which migration within EU can have positive effects on countries such as UK.(4)		
I can describe refugee migration flows to the EU and can explain their impacts					Refugee migration in the EU and its impacts
